

Eco Medical has been operating in Edmonton since 1978 and is committed to excellence in providing you and your family members with the proper services and support.

The knowledge and compassion of our staff along with the high quality equipment we provide enables our clients to lead a more independent and active lifestyle.

Our mission is to be the industry leader through service, education, innovation, and excellence in both mobility and accessibility. Our number one focus is to provide "Patient First Care". Our professionally trained staff strive to provide top of the line service for not only our clients but their family members as well.
